

Yes! to Granny

Yes! to affordable housing

Yes! to infill development

Yes! to ADUs

This year a record number of Californians are turning 65 and 50% of those have no retirement savings.

Where will your grandparents live?
How will retirees and older adults afford a place to live? How can you live close to loved ones in need?

How about an ADU? (aka Granny Flat)

**Let's make room for our family-
children, parents, and grandparents.**

**We support intergenerational
living and want to end the crisis of
seniors and older adults without
a roof over their heads.**

**We want to live in a city where all
ages and economic levels can call
home.**

**Discover the City of Sacramento's
resources and information on infill
development and the ADU toolkit.**

**Yes! to Granny is a creative art campaign
by artist in residence, Angie Eng
City of Sacramento**
